Enhancement for Sage MAS 90 and MAS 200

Quick Physical Count Entry

Overview

Our **Quick Physical Count Entry** screen streamlines the process of entering physical counts into MAS90 or MAS200. Unlike the standard Physical Count Entry process, you're not required to *Freeze Inventory* ahead of time nor are you required to enter the count in any pre-defined order. You can enter counts quickly and easily in any way that makes sense for your organization. When you're done entering the "quick count", our enhancement immediately imports the data into MAS90's standard *Physical Count Entry* function so that standard MAS90 physical count processes would then apply.

Key Features & Functions

- Enter item counts in any order
- Enter the same item multiple times
- All entry on one simple screen
- Enter by item count or box count
- Inventory can be frozen or not
- Inventory count automatically imported into standard Physical Count Entry screens

Enhancement for Sage MAS 90 and MAS 200
Quick Physical Count Entry

1. Launch MAS90.
2. Select **Inventory Management** from the *MAS90 Modules Menu*.
3. Select **Quick Physical Count Entry** the *Inventory Physical Menu*.

The screenshot shows a dialog box titled "Quick Physical Count Entry" with a blue title bar and a close button (X). The dialog contains several input fields and buttons. The fields are: "Count Sheet Number" with the value "123456", "Warehouse" with "001" and "SA&Y" to its right, "Item Number" with "14 X 10 X 6" and "GENERIC BOX" to its right, and "Sequence No" with "00". Below these is a section with three more fields: "Number of Cartons" with "1", "Pieces per Carton" with "5", and "Quantity Counted" with "5". At the bottom, there are four navigation buttons (back, forward, etc.) and three main action buttons: "Accept", "Cancel", and "Delete", along with a printer icon.

4. When done entering the count, you are prompted to import the count into the MAS90 standard Physical Count Entry screen.

The screenshot shows a dialog box titled "MAS 90" with a purple title bar and a close button (X). It contains a question mark icon and the text: "About to Import Quick Count to Permanent Count. Do you want to continue?". At the bottom, there are two buttons: "Yes" and "No".

5. Standard MAS90 processing then takes over.
